Gold With a Silver Lining

Precious Bond bands are made of 100% precious metal. The outer seamless band of 14kt gold is approximately 25% of the total weight. It is designed, finished, and uniquely fused to a sterling silver liner through high performance technology. The crafted piece is finished off with palladium and then a rhodium bond, keeping the finish intact with color and brilliance.

Caring for Your Precious Bond Band

Taking care of your Precious Bond band is the same as any other gold band. Because the outer surface of your band is a precious metal, it can be scratched. A jeweler can carefully polish the blemishes out and restore your band to its original state.

Sizing Precious Bond Bands

Your band is made of seamless, extruded gold and silver tubing, fused together without the application of any solder points. We highly recommend your professional jeweler use a one size stretching rule to avoid any "orange peeling." The band may NOT be cut and sized down.

Scooped Bands

Scooped bands look like traditional wedding bands. But outward appearances aren't always what they seem. Hidden within the band is a scooped out portion that literally scoops out a portion of the costs associated with a precious metal band. Smooth and comfortable on the finger, it'll be a secret between you and your customer.

Lifetime Warranty

Each Luxecor™ wedding band comes with a lifetime warranty. This warranty provides for replacement (if returned to Stuller) for damage as a result of manufacturing defects. Normal wear and tear is excluded. Rings can only be sized at Stuller.

AMERICAN GEM TRADE ASSOCIATION (AGTA) ENHANCEMENT CODES AND DESIGNATIONS

ENHANCEMENT: Any traditional process other than cutting and polishing that improves the appearance (color/clarity/phenomena), durability, or availability of a gemstone.

- N** The "N" symbol appears on the chart only for natural stones which are not currently known to be enhanced; however, the "N" symbol can also be used for other natural gemstones in the event that a gemstone has received no enhancement and the seller will provide a guarantee that there has been none.
- E** The "E" symbol indicates that a gemstone has undergone its traditional enhancement process.

SYMBOLS FOR SPECIFIC FORMS OF ENHANCEMENT

ASBL—ASSEMBLED:

"ASBL" is the tag code for products made of multiple layers or combinations of manufactured and/or natural material fused, bonded or otherwise joined together to increase stability and/or imitate the appearance of a natural gemstone, create a unique design or generate unusual color combinations.

B—BLEACHING:

The use of heat, light and/or other agents to lighten or remove a gemstone's color.

C—COATING:

The use of such surface enhancements as lacquering, enameling, inking, foiling, or sputtering of films to improve appearance, provide color, or add other special effects.

D—DYEING:

The introduction of coloring matter into a gemstone to give it new color, intensify present color or improve color uniformity.

F—FILLING:

The filling of surface-breaking cavities or fissures with colorless glass, plastic, solidified borax or similar substances. This process may improve durability, appearance, and/or add weight.

H—HEATING:

The use of heat to effect desired alteration of color, clarity, and/or phenomena. If residue of foreign substances in open fissures is visible under properly illuminated 10X magnification H F should be used.

HP—HEATING & PRESSURE:

The use of heat and pressure combined to effect desired alterations of color, clarity and/or phenomena.

IMIT—IMITATION:

"IMIT" is the tag code used for a manufactured product fabricated in such materials as glass, ceramic or plastic designed to imitate or resemble the appearance, but not duplicate the characteristic properties of a natural gemstone.

"IMIT" is also the tag code for a simulant, which is defined as man-made single crystal product that is used to simulate the appearance, but not duplicate the characteristic properties of the natural gemstone it imitates.

I—IMPREGNATION:

The impregnation of a porous gemstone with a colorless agent (usually plastic) to improve durability and appearance.

L—LASERING:

The use of a laser and chemicals to reach and alter inclusions in gemstones, usually diamonds.

O—OILING/RESIN INFUSION:

The filling of surface-breaking fissures with colorless oil, wax, resin, or other colorless substances, except glass or plastic, to improve the gemstone's appearance.

SYN—SYNTHETIC:

The tag code may be used to describe "synthetic" materials that have essentially the same optical, physical and chemical properties as a naturally occurring counterpart.

R—IRRADIATION:

The use of neutrons, gamma rays or beta particles (high energy electrons) to alter a gemstone's color. The irradiation may be followed by a heating process.

U—DIFFUSION:

The use of chemicals in conjunction with high temperatures to produce artificial color change and/or asterism-producing inclusions.

W—WAXING/OILING:

The impregnation of a colorless wax, paraffin, and oil in porous opaque or translucent gemstones to improve appearance.

Shipping Information

Most items in this catalog are available for same-day shipping, next-day delivery. Ground delivery service is available for items that are too large or too heavy for overnight delivery to be cost effective. Your sales consultant will discuss alternative shipping options with you when you order. Freight and insurance are billed at the time of shipment.

- **Truck Shipments/UPS/FedEx.** All carriers are responsible and liable for any damages that occur during transit. If you suspect any damage or shortage caused during transit, do not sign freight bill or receipt without making a notation on the freight bill. Retain all packing material and shipping cartons until the carrier has made an inspection. File a claim directly with the carrier within 15 days. Stuller CANNOT file a claim for you.
- **Hazardous Materials Shipping.** The Department of Transportation (DOT) governs the labeling, packaging, and handling of certain materials. These standards increase costs from shipping companies for handling (currently an additional \$20-\$30 to each separate package or chemical). Some of your packaging amounts may change. We continually update our shipping policies and try to minimize the DOT charges where possible. Material Safety Data Sheets are sent with all required items and contain important, safety recommendations and emergency procedures. Additional copies are available by contacting Tools Customer Service. Keep on file for quick reference.

We want you to be happy with everything you purchase from us. If you are not satisfied and need to return merchandise, we will give you full credit, provided you follow these procedures. Stuller is not responsible for returns that are damaged in transit.

1. You must return items for credit in their original packaging materials, unaltered and in resellable condition. Make sure they are packaged securely and insured for full value,
 - within 10 days of invoice date for serialized diamonds, serialized gemstones, and finished jewelry

3. Address your package to Stuller, Inc., Attn: Customer Service, 302 Rue Louis XIV, Lafayette, LA 70508. All returns must be shipped prepaid (No CODs). If FedEx was the carrier, you can use the FedEx PRP label you received with your order. Call FedEx for a pickup. Get your FedEx driver (or desk clerk) to sign and date the form. The shipper's receipt number is a receipt and tracking info. A flat rate \$8.50 will be charged to your invoice on packages less than five pounds and \$1,000 value.
4. Upon receiving your return, we will exchange, replace, or credit. You will receive credit in the same manner as you paid for the merchandise.

Items with manufacturing defects may be returned for exchange. We regret that we cannot accept returns for special order items, Stuller Overstock items, altered items, used tools, videos, cut items, or books. For exchanges, products are credited to your account. The price of the new product will be charged to your account, along with any exchange fee. Be aware that normal shipping charges do apply. Except for specific Stuller programs that make provisions for "conditional sale" merchandise (finished jewelry, large diamonds and gemstones), products cannot be ordered for review. Such returns will be charged a 15% restocking fee. A 15% restocking fee may also be charged for all returns from accounts that consistently abuse the return privilege.

Product Review/Conditional Sale

(Sale with the right to return). Most finished jewelry is available to qualified accounts for your customers review (limit of two items). Conditional sale merchandise is available for five working days only and must be returned or invoiced at that time. Follow these procedures:

Política de Devolución

Nosotros queremos que usted esté contento con todo lo que usted ordena de nosotros. Si usted no está satisfecho y necesita devolver mercancía, le daremos el crédito total si usted cumple con los siguientes requisitos.

1. Usted debe devolver los artículos para crédito, en su paquete original, inalterados y en las mismas condiciones que se le envió para que posteriormente sean puestos a venta. Asegúrese que estén correctamente empaquetados y asegurados por el valor completo.
 - dentro de los 10 días desde la fecha de facturación para los diamantes certificados, piedras preciosas certificadas y joyería terminada.
 - dentro de los 30 días desde la fecha de facturación para el resto de los artículos.
2. Incluya la Forma de Devolución de Mercancía que está en la parte perforada de su recibo o la factura original, con los artículos a devolver. Por favor incluya la razón por la cual hace la devolución. Mercancía devuelta sin esta forma o una copia de la factura será sujeta a una cuota de cargo por servicio de \$10.00, ó la mercancía será retornada a usted con los respectivos cargos de envío por los cuales usted será responsable.
3. Envíe el paquete a Stuller, Inc., Attn: Customer Service, 302 Rue Louis XIV, Lafayette, LA 70508. Toda devolución debe ser enviada pre-pagada (No se aceptan CODs). Si Fed Ex es la transportadora, usted puede usar las etiquetas PRP (Pre-pagadas) que recibio con su orden. Llame a Fed Ex para que recojan el paquete. Haga que el agente de FedEx (o recepcionista) firme y ponga la fecha en la forma. El número de recibo del transportador es un recibo y la información de guía del envío. Una tarifa fija de \$8.50 será cargada a su factura para paquetes menos de cinco libras y menos de \$1,000.
4. Cuando recibamos su devolución, realizaremos el intercambio, reemplazo, o crédito. Usted recibirá crédito en la misma forma que hizo el pago por la mercancía.

Artículos con defectos de manufacturación pueden ser retornados para su intercambio. Lamentamos informarle que no podemos aceptar devoluciones por artículos hechos mediante el programa de Stuller Studio, Ordenes Especiales, artículos de exceso de inventario en oferta, artículos alterados, herramientas usadas, videos, piezas cortadas, o libros. Para intercambios, los artículos serán acreditados en su cuenta. El precio de los nuevos artículos serán cargados a su cuenta junto a una cuota de cambio correspondiente. Tenga en cuenta que cargos de envío normales aplican. Excepto por algunos programas de Stuller específicos que hacen ciertas exclusiones para mercancías de "ventas condicionales" (Joyería terminada, diamantes y piedras preciosas certificadas), los demás artículos no pueden ser ordenados para su revisión. Tales devoluciones serán sujetas a una cuota de 15% por reposición de existencias. Un 15% de cargo de reposición de existencias puede también ser aplicado a todas las devoluciones de cuentas que constantemente abusen del privilegio de la política de devolución.
